*Justine Loudot
for Tattini*

THE FIRST BOOTS IN THE WORLD WITH CLOSE CONTACT TECHNOLOGY

Thanks to our technology and design 100% made in Italy, the boots of our *Close Contact* series are the first to use *CloseTEX* (Close ContactTextile), which guarantees maximum contact with the horse thus increasing rider's performance. The *CloseTEX* boot insert on the inside of the leg limits the wear due to abrasion and offers a higher grip, while it provides softness and durability. The volumes and proportions of the vamp and leg have been adapted to increase comfort and optimize the fit.

SINCE 1860 WE RIDE YOUR PASSION

We are an Italian company that has been producing and distributing footwear, clothing and equipment for horse riding since 1860. We combine over a century of expertise with a unique Italian style and a flair for constant innovation, always remaining true to traditional craftsmanship. For riders this means wearing a boot and wearing innovation,

with a guarantee of performance and comfort. Created and manufactured in Italy but you can find us in over 30 countries. We are always searching for new technologies and materials, innovative manufacturing and packaging which guarantee a high level of performance without sacrificing style. Our made in Italy is the core of all this.
